DETAILED ACTION

Citation of Relevant Prior Art

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Kim et al. (US 2004/0128608) disclose (see Figures 7A & 7B) a unit wobble signal that indicates the start of address data of two bits by using a combination of BPSK and FSK pattern signals.

Allowable Subject Matter

2. Claims 94-97 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record alone or in combination fails to teach:

in claims 94 & 97, "...the wobbles are recorded with FSK+PSK modulated information *as layer information indicating a place or position of each recording layer*".

Claims 95 & 96 are dependent upon claim 94.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
